

July 11, 2018

Good morning to our esteemed Sertomans,

We wanted to send you our most heartfelt thanks for your recent donation (as well as again for all of your continued years of support). We also wanted to let you know that we have utilized your funds from the past year's donation to purchase a very crucial piece of equipment (called the Audioscan Verifit, for those of you who are curious!) that will allow us to significantly expand our services. Here at Specialty Care Center at Dell, we have always focused on providing excellent care in the area of comprehensive evaluations for the diagnosis/identification of hearing loss. Unfortunately, due to limited resources in our area, many of our patients experience delays in being fitted with hearing aids, which can result in language and developmental delays.

We are aiming to address this with the opening of a hearing aid clinic (estimated time frame within the next 6 months) – a project many years in the making. The funds we have received from Sertoma have played a crucial role in allowing us to address this need in our population. We cannot express enough how very grateful we are for your support among so many other organizations. Thanks so much for choosing to bet on our horse, so to speak. A million times thank you again from the audiology team at Dell Children's, and our wishes to you for a fantastic summer.
